Fantasy war-torn ruled by the Elden Ring and a world where the existence of magic and those who wield it is feared. A world where various forces, including the newly revitalized Kingdom of Elden and the Evil Legion, are causing havoc.

The hero Almah is the first member of an Elf race to appear in the land of Alni. Accepted to the Halls of Learning, Almah is intrigued by research into the Occult Arts.

A five-year period of peace has ensued since Almah was accepted into the academy. However, the peace may be about to be shattered by the arrival of the Evil Legion.

The army of the evil aura race has made an all-out advance across the Emerald Empire and the most populous city has fallen to their onslaught. With the main city divided into two opposing sides, losing this battle would be a fatal blow.

Characters in the game:

the sky. Unlike The World of Men, the inhabitants of the Lands Between are kind, noble elves and depraved, monster-kindlings. They live in harmony together, maintaining a restricted border between elva and elya. These peaceful lands are inhabited by Tarnished, those who walk upon the border of good and evil.

Now, for the first time in history, the destiny of Tarnished can be changed. From a world where adventurers were powerless, the upcoming game brings forth a new fantasy action RPG where you will be able to experience the massive action and vivacious world.
