In 2002, Erik Cassel founded Roblox, a brand new interactive multiplayer platform to encourage "education and entertainment while fostering creativity and imagination." In 2004, Roblox launched to the public as a simple platform for creating 3D interactive fictional games. Since that time, the games and the platform have grown exponentially. Roblox is home to the world's largest community of creators, players and game developers. Roblox Game Description: The internet can become a dark place, where children are victims of violent games, bullies post malicious messages on their pages, and where rude messages and rude words exist for all to see. Roblox helps children with many online issues that they often face, ranging from bullying to privacy, by giving them an immersive and safe platform to play. Roblox provides a unique feature, the ROBLOX Studio (formerly known as the ROBLOX Builder). The ROBLOX Studio allows children to create and build their own game in an immersive 3D environment. They can go to the ROBLOX Marketplace and find the best and most popular games for their kids to play. Because it is a free platform, Roblox can provide a safe, fun and inclusive environment where children can safely express their creativity. And because players can customize the whole interface, it gives children a unique experience that they have never had before. The 3D platform is already available on computers, Mac OS X and iOS, as well as through a web browser on the web. Soon, the games will be made available on Amazon Fire TV, Chromecast, Oculus Quest, Nintendo Switch, Android and soon. Tanks Description: Tanks is a video game made using the Roblox engine. It is one of the latest games made by Roblox and is mostly based on the military war style game. This game has 73 levels and some of the maps are very small. This game is mostly known for being the game that expanded the numbers of children around the world playing and making their first video game. There are no reviews for Tanks. Make the first one now! Are you searching for a game like Tanks but for free? If the answer is yes, then your search will end right here! We have just the game for you! Instructions: To add cheat you just enter cheat code - you will instantly get robux, monsters and free flights. Also there's a list of all in-game cheats - press them to see what you can do in game. Note - you can use only cheats from the list. The number of available cheats can be found below: Missions have become a new way of gameplay for Roblox. Once you complete these missions you gain Robux, Monster Tokens or XP Points. The missions are always given out to members that have completed them, and these missions are very easy to do. All you have to do is click on them, and you will be ready to move on. Stickers are special items that have random effects. They come in a variety of colours. When you click on them, they will give you one of many effects. Stickers also give off an aura that can be seen from a long distance, giving you a hint about where it is coming from. Some Stickers also give you a permanent effect (2x view, double jump, invincibility etc.). To make them disappear or drop automatically, click on the boxes on the right side. You also need to hold down the Shift button to do this. You can't use them right after you create them, you need to wait a few seconds before you can press the button. Go to GM and make sure there is a top right box with "1V1" and a "1V2". The "2" is for Double Battle, the "1" is for Single Battle. Once those boxes are done, press the "1" button to start the game. A mystery box is like the Block Exchange box. You need to put items in the "Box" and it will make it start following you around the level. If you click on the "Box" you can add more items to it. To remove items from the box you just click on the red circle that closes it. To get free roblox codes you can find lists online. To get free robux you need to download a program called Roblox Hack. This code can be found online and allows you to make unlimited amount of robux on Roblox. Here is a link to a Roblox Hack for Roblox when you have it open, all of the 3D UIs will be disabled and you will be in Roblox game
